## Presentation

4Teens is the English collection of Editora Viena elaborated especially for teenagers from the digital age.

With authentic texts and events situations, Editora Viena respects the potentialities, interests and needs of students of this age group, in particular the key role that technology plays in their lives.

Through a technological theme and based on the daily routine of the students, the collection acts as a facilitator of access and information sharing, and it brings a series of digital and social components that help the student to consolidate the studied content. Moreover it supports the teacher in the personalized monitoring of students' progress.

In this way, it aims to develop the four necessary skills and competences to enhance and complete learning in the English language.

## Matation time is arart

After summer vacation, when the days are not so warm anymore, school begins.
Going back to school is not only grabbing your school bag and resuming your school activities like the previous year. Many changes happen from one year to another. You have to be prepared to develop a new school routine, share your experiences, manage difficult situations, and face the unknown. If you prepare yourself in advance, it is going to be easier to get involved in all kinds of activities. It is time to meet old friends and make new ones.
Sometimes, curiosity doesn't prevent our questioning: "what's your name?" - "where are you from?" - "do you like...?" - "where do you...?", "do you have...?" etc. That's why you don't need to be worried. It is just one more time to discover and explore new experiences.

## Listen to the text hedow.

It is always great to go back to school after a month vacation. At school, we can meet old friends and, of course, make new ones.

During vacation, we normally travel to different places with our families or we simply stay at home and do something different like going to the movie theater or to the mall, watching films on TV, listening to music, and so on.

But going back to school, after having so much fun during a period of time is the best moment because we can exchange experiences with our friends and listen to what they have done during their school holidays. There is too much to talk about.

The bell of the school year will soon ring and we must ask if we are ready to face the new challenges the teachers impose on us.

So, let's enjoy one more school year and study hard to achieve our goals.
